

**Textile
Exchange**

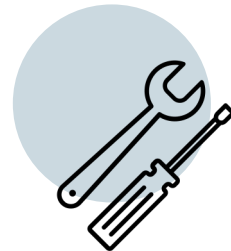

20 Years

What we offer:

Insights, thought leadership, and reports.

- Corporate Fiber & Materials Benchmark
- Preferred Fiber & Materials Report
- Organic Cotton Market Report
- Landscape analysis

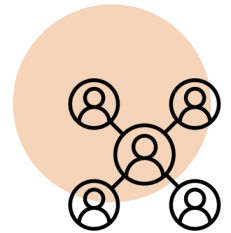

Tools to guide decision-making

- Fiber and Materials
- Preferred Fiber & Materials Matrix

Advancing Proven Solutions

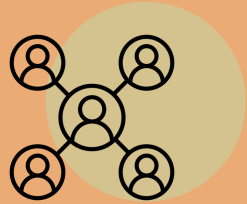

- Impact Incentives
- Responsible Standards & Certifications

A community

- Textile exchange membership
- Annual Textile Sustainability Conference
- Round Tables & Working Groups
- The Hub

Textile Exchange by Numbers*

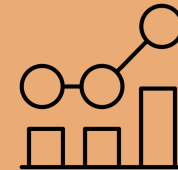

810+

Active members of Textile Exchange

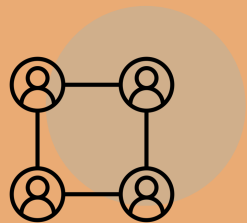

2,400+

Participants across 11 Round Tables

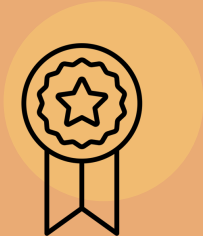

320+

Companies engaged in benchmarking their use of preferred materials

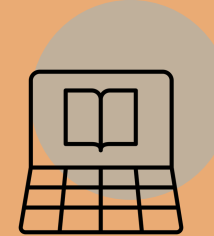

1,900+

Industry professionals convened at our Dublin 2021 hybrid conference

48,000+

Sites certified in 2001 in 98 countries to our 8 active standards with 28 certifying bodies

70+

Online educational events hosted throughout 2021

We are the only organization tracking uptake of preferred fibers & materials. We use this data to deliver exclusive reporting and guidance to the industry to accelerate change.

We publish 3 annual reports that are the only of its kind, delivering critical information to the industry.

- Corporate Fiber and Materials Benchmark
- Preferred Fiber & Materials Report
- Organic Cotton Market Report

Climate⁺

Textile Exchange - Vision 2030

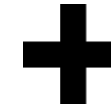

A driving force for urgent climate action in textile fiber and materials production. Enabling and guiding the textile industry to reduce GHG emissions (co2 equivalents) 45% by 2030 in the pre-spinning phase of textile fiber and materials production.

Grounded in Partnership+
Amplifying positive impacts in soil health, water, + biodiversity.

Soil Health

Biodiversity

Water

Mission

Textile Exchange inspires and equips people to accelerate the adoption of preferred materials through clear and actionable guidance. We convene the textile industry to collectively achieve climate reduction goals and holistic positive impacts across fiber and raw material production.

Vision

We envision an enriching global textile industry that protects people and planet by positively impacting climate, soil health, water, and biodiversity.

Textile Exchange Conference

The place and space for the industry to come together.

The conference is a uniquely strong and highly-attended forum to convene in our stakeholder and partnership cohort. The entire value chain is represented. The conference brings together dedicated advocates for our mission through transformative experiences, networking and education.

14 - 18 November, Colorado Springs, USA
